Valve World Expo India 2026 All Set to Drive the Future of Industrial Flow Control Through Innovation, Global Collaboration and Emerging Market Opportunities

2-day expo will showcase a wide range of valves, actuators and flow control systems alongside a comprehensive summit, roundtable, workshops, Africa market report and more

[June 2026 | Mumbai, India] Valve World Expo India, the country's leading expo and summit dedicated to industrial valves, actuators and flow control systems, is gearing up to bring together the global valve and flow control community for an impactful industry gathering focused on innovation, sustainability, technology advancement and international business collaboration.

Jointly organised by Messe Düsseldorf India and Global Flow Control, the upcoming 2nd edition will serve as a comprehensive business and knowledge-sharing platform for manufacturers, suppliers, piping engineers, users of valves & actuators technology providers, consultants, EPC companies, policymakers and engineering professionals from across the industrial ecosystem.

Powered by Innovation: Local Solutions, Global Impact

The event scheduled from **11–12 June 2026 at Hall 3, Bombay Exhibition Centre, Mumbai**, is expected to witness participation from over **74 exhibiting companies** representing major industrial economies including **Austria, Brazil, Canada, China, Croatia, Finland, Germany, India, Italy, Japan, the United Kingdom and the United States of America**. The exhibition will showcase cutting-edge technologies and next-generation solutions across industrial valves, actuators, automation systems, sealing technologies, smart monitoring solutions, industrial castings and advanced flow control equipment catering to a wide range of process industries.

Valve World Expo India 2026 will continue to strengthen its position as a key platform connecting manufacturers and solution providers with high-level buyers, decision-makers, engineers and procurement professionals from sectors such as **oil & gas, petrochemicals, chemicals, power generation, water and wastewater management**. This year's edition marks a strategic expansion in the exhibition's outreach and visitor engagement with the addition of new visiting industries including **cement, steel, sugar, paper and mining industries**. These sectors, which are witnessing rapid industrial development and increased demand for efficient process management systems, are expected to contribute significantly to the growing importance of industrial flow control technologies in India and beyond.

A Comprehensive Industry Engagement

Further enhancing the exhibition experience will be the specially curated **Innovation Hub**, a dedicated platform highlighting future-ready technologies and advanced engineering solutions shaping the next generation of industrial flow control. The Innovation Hub, hosted by **Valmet** will showcase developments in automation, predictive maintenance, digitalisation, smart valves, sustainability-focused engineering and efficiency-driven industrial applications.

The event will continue its commitment towards skill development and industry empowerment through the **Young Engineers Program**, an initiative designed specifically to engage young engineers, students and future procurement professionals working within Indian industrial and engineering companies. The programme aims to provide greater exposure to industrial valve technologies, applications, innovation trends and career opportunities within the global flow control sector while encouraging stronger industry-academia interaction.

One of the most significant highlights of the upcoming edition will be the **Africa's Industrial Valve Market Report** and dedicated business discussions focused on emerging opportunities across the African continent. Featuring in-depth insights from the African Industrial Valves Market Outlook to 2035, the presenters from **Market Research Future** (the Knowledge and Media Partner for the event); *Snehal Singh - Associate Vice President of Research and Ajitesh Gupta - Lead Analyst,* will explore data-driven insights into high-potential African market, growing industrial investments, infrastructure development and market access opportunities for manufacturers seeking to expand their footprint in this promising growth region.

Complementing the exhibition floor will be the technical **Workshop programme** and the 2-day **Valve World Summit India** featuring industry experts, technology specialists and thought leaders discussing some of the most relevant and pressing topics impacting the valve and process engineering industries today. The summit sessions and workshops have been carefully curated to address evolving industry challenges and opportunities, including operational efficiency, energy optimisation, digital transformation, process safety, supply chain & procurement, emissions management, sustainability initiatives and emerging engineering practices. The highly sought-after workshops are hosted by industry leaders such as Khanna Paint Test Laboratory, Instrumentation Limited, The Institute of Indian Foundrymen, Alcatraz Interlocks, L&T Valves, Indian Valve and Actuator Manufacturers Association (IVAMA) and Hawle India.

Going beyond conventional discussions that focus primarily on market theory, the **International Roundtable** at Valve World Expo India 2026 will emphasise on practical industry guidance, actionable business strategies and real-world opportunities in emerging African markets. Under the theme "Spotlight on Africa – The Continent of Opportunity" the session will have industry experts, market analysts and business leaders such as *Dr. Asif Iqbal, President - India Africa Trade Council & Indian Economic Trade Organization, Mainak Nandi, Consultant /Ex-EIL, Independent Consultant, Puneet Rustagi, Director Commercial - Pana Holdings, Nigeria, Prashanth Prasad, Head of Sales – Middle East & Africa - L&T Valves, Middle East and Africa, Snehal Singh, Associate Vice President - Market Research Future, Dr. Thandukwazi Bhungane, Group Economist - 2Roads, South Africa, Tony Akwuegbu, COO - ATMA Global Sources, Nigeria* and *Zipho Zama, Consul Political - South African Consulate General* on the panel moderated by *Mummadi Venugopal, Senior Vice President (Procurement) - Reliance Industries Ltd*. The session will provide insights into market dynamics, procurement trends, regulatory frameworks and partnership opportunities that can help Indian companies strengthen their presence in rapidly developing African economy.

Commenting on the upcoming edition, ***Ajay Kumar Gulati, General Manager, Messe Düsseldorf India***, said, "Valve World Expo India 2026 reflects the growing importance of India as a strategic hub for

industrial manufacturing, engineering innovation and global business collaboration within the flow control sector. With strong international participation, specialised knowledge sessions and a focused industry-driven agenda, the exhibition continues to provide a valuable platform for meaningful engagement between technology providers, manufacturers and end users across key process industries. This edition further strengthens the event's commitment towards promoting innovation, encouraging knowledge exchange and creating new business opportunities, while also highlighting emerging markets and future-ready industrial solutions. We are confident that Valve World Expo India 2026 will deliver a highly impactful experience for exhibitors, visitors and industry stakeholders from across the globe."

Sharing insights on the upcoming edition, ***Kay T. Creedon, CEO & Co-Founder, Global Flow Control***, stated, "This edition, alongside the Summit and a comprehensive series of Technical Workshops covering a wide range of valve-related topics, will also feature the Innovation Hub, where Valmet will showcase future-focused solutions and advanced technologies shaping the next generation of flow control. We are also deeply committed to empowering the future workforce through the Young Engineers Program, providing young Indian engineers with vital exposure to evolving market opportunities. As in previous editions, we will also continue to highlight strategic growth opportunities for Indian valve manufacturers in emerging and developing regions. Through dedicated market reports and roundtable sessions, we will spotlight the significant potential of the African market via the 'Africa – The Continent of Opportunity' program'."

Strong Industry Representation

The event has received strong support from leading industry stakeholders and organisations. The 2026 edition will feature **L&T Valves as the Platinum Partner,** while **GM Engineering Private Limited** and **Valve Tech Industries join as Gold Partners. Rappid Valves India Private Limited** and **Susin I-Tork India Pvt. Ltd. will participate as Silver Partners**. Associate Partners include **Advance Valves Pvt. Ltd. as Lanyard Partner, Auma India Private Limited as Visitor Bag Partner** and **Teadit Packing & Gaskets Private Limited as Tea & Coffee Partner.**

IVAMA has extended its support as the **Country Partner**, reinforcing the exhibition's role in advancing India's industrial valve manufacturing ecosystem. IVAMA will present **Industry Awards** to members who have made significant contributions to the valve industry. **Market Research Future** joins the event as **Knowledge Partner and Media Partner** and will contribute valuable market intelligence through specialised presentations and African market insights sessions during the event.

Since its inaugural edition in 2024, Valve World Expo India has established itself as one of the most influential business and networking platforms for the industrial valve and flow control community in South Asia. By bringing together global expertise, emerging technologies, strategic discussions and high-level business engagement under one roof, the exhibition continues to contribute significantly to the advancement of valve and flow control industries in the region. With its strong international participation, expanded sector outreach, future-focused conference agenda and emphasis on emerging markets, Valve World Expo India 2026 is poised to deliver an even more impactful and industry-defining edition.

About the Organisers

Messe Düsseldorf India Pvt. Ltd. is a fully owned subsidiary of Messe Düsseldorf GmbH which is a global player both as a trade fair organiser and as a provider of trade fair related services for exhibitors and visitors. Messe Düsseldorf India has been successfully staging established trade fairs like Medical Fair India, India Essen Welding & Cutting, wire India, Tube India, METEC India, FAMDENT SHOW Shows & Awards, glasspex India, glasspro India, ProWine Mumbai, In-Store Asia and Valve World Expo India. Besides organising successful trade fairs in India, the company is also the exclusive Sales representative of Messe Düsseldorf Group for the Indian Market and is canvassing Indian customers to Events of Messe Düsseldorf Group worldwide.

Global Flow Control is a data-driven, multi-vendor, subscription-based marketplace exclusively serving the flow control industry worldwide. It promotes both companies and their products (valves, actuators, positioners, pumps, pipes, fittings, instrumentation, flowmeters, etc.). The concept of Global Flow Control was born out of over 20 years of experience, serving the flow control industry in print media and event management. It was time to provide both manufacturers and buyers with a 24/7 platform where products can be showcased and sourced easily. The platform offers the community a host of features, including a marketplace, industry-relevant developments, events, buyer assistance portals, dashboards, advanced analytics, global tenders, projects, global contract awards, as well as daily global project news.
