

Press Release

Valve World Expo Expands Its Global Footprint: Inaugural Edition in India set to unveil the Future of Industrial Valves this September

2-day exhibition & summit look forward to attendees from industries including Oil & Gas, Power, Petrochemicals, Water and more

February 2024: Valve World Expo India proudly announces its inaugural edition, scheduled to take place on 19th and 20th September 2024 at the Bombay Exhibition Center, Mumbai. Dedicated to industrial valves and valve accessories, the show is set to become the premier meeting place for professionals across various sectors who are seeking advanced products & solutions and looking for meaningful business connections.

Jointly organised by *Messe Düsseldorf India* and *Global Flow Control*, Valve World Expo India follows the legacy of Valve World Expo - that has been bringing together the global and regional valve industry in Düsseldorf, Germany since 2010. The Valve World Expo has evolved into the largest trade fair for industrial valves, uniting 700 exhibitors from 40 countries. After successful launches in China, Singapore, and the USA, the stage is set for a comprehensive summit and trade show in India this year.

Following its launch, the show has garnered an outstanding response from the industry. The trade expo will feature the participation of industry leaders, including *L&T Valves* as Platinum Partner and *GM Engineering & Valve Tech Industries* as Gold Partners and it is also supported by *The Indian Valve and Actuator Manufacturers Association (IVAMA)* as the Country Partner.

"We are pleased to bring Valve World Expo to India. The dynamic industrial landscape of the country opens doors to endless opportunities for the growth of valve industry," said *Thomas Schlitt, Managing Director – Messe Düsseldorf India*. "Valve World Expo India 2024 in Mumbai will offer an integrated platform for industry experts to explore cutting-edge developments in valve technology, foster collaboration and knowledge exchange within the elaborate ecosystem of valve applications."

"The valve manufacturing sector in India is an integral part of the country's burgeoning industrial framework, playing a pivotal role in a variety of critical sectors including, but not limited to, power generation, water and wastewater treatment, oil and gas, and chemical and petrochemical. With a legacy spanning several decades, this sector has experienced considerable growth and development over time. Forecasts for the Indian industrial valves market indicates an estimated value of USD 2.41 billion in 2024, with an expected escalation to USD 3.38 billion by 2029. Currently, there exists an unparalleled opportunity to engage with the Indian valve industry.", said *Kay T. Creedon, CEO & Partner - Global Flow Control*.

The 2-day show will feature an extensive expo showcasing the latest products, services, and innovations from over 80 leading global and domestic manufacturers of valves, actuators, positioners, gaskets, castings, components, accessories in addition to valve testing, diagnostics solutions and technology.

The event will focus on a number of key industries, including oil & gas, petrochemical, hydrocarbon, power generation, and water & waste treatment, supported by an esteemed Advisory Board with representatives from leading organisations such as Reliance, Fluor, GNFC, Deepak Nitrite, Dorf Ketal Chemicals, Worley, Honeywell UOP, Mangalore Refinery, Topsoe, VA Tech Wabag, Petrofac, Technip, Air Products, and ThyssenKrupp.

Alongside the expo, an extensive program consisting of summit, roundtable discussions, networking dinner, felicitation, masterclasses and workshops will ensure a well-rounded learning experience for the attendees. With multiple touchpoints with various stakeholders, peers and experts, the attendees will have an opportunity to make connections that last well beyond the 2 days of the show.

The summit will feature interesting deliberations that will revolve around the theme 'Indian Valve Industry – For a Greener Tomorrow', with experts joining in from across the globe to share their perspectives.

The anticipation of the show by industry professionals demonstrates a strong need for a robust and dedicated platform to support the rising growth and demand of valves and allied products and solutions in India. With this vision at the forefront, Valve World Expo India promises to be the platform that the industry has been waiting for.

About the Organisers

Messe Düsseldorf India Pvt. Ltd. is a fully owned subsidiary of Messe Düsseldorf GmbH which is a global player both as a trade fair organiser and as a provider of trade fair-related services for exhibitors and visitors. Messe Düsseldorf India has been successfully staging established trade fairs like Medical Fair India, In-Store Asia, FAMDENT Shows & Awards, glasspex India, glasspro India, pacprocess & food pex Mumbai, India Essen Welding & Cutting, wire India, Tube India, METEC India and ProWine Mumbai. Besides organising successful trade fairs in India, the company is also the exclusive Sales representative of Messe Düsseldorf Group for the Indian Market and is canvassing Indian customers to Events of Messe Düsseldorf Group worldwide.

Global Flow Control is a data-driven, multi-vendor, subscription-based marketplace exclusively serving the flow control industry worldwide. It promotes both companies and their products (valves, actuators, positioners, pumps, pipes, fittings, instrumentation, flowmeters, etc.). The concept of Global Flow Control was born out of over 20 years of experience, serving the flow control industry in print media and event management. It was time to provide both manufacturers and buyers with a 24/7 platform where products can be showcased and sourced easily. The platform offers the community a host of features, including a marketplace, industry-relevant developments, events, buyer assistance portals, dashboards, advanced analytics, global tenders, projects, global contract awards, as well as daily global project news.
